

SAN PEDRO PORT CLEAN AIR ACTION PLAN (CAAP) OPPOSITION COALITION

I/We oppose the implementation of the San Pedro Port Clean Air Action Plan in its current form!

The San Pedro Ports Clean Action Air Plan (CAAP) – Proposed Clean Trucks Program was in released in April 2007. Beginning in 2008, the Program proposes the ports will use their tariff authority to only allow concessionaires operating “clean trucks” to enter the port terminals without having to pay a new Truck Impact Fee at the gate.

This Proposal will interrupt the continuity of goods movement throughout the state by drastically altering the current drayage service.

You may list me/our business publicly in opposition of the San Pedro Port Clean Air Action Plan and a member of the opposition coalition.
